

Amphenol is one of the largest manufacturers of interconnect products in the world. The Company designs, manufactures and markets electrical, electronic and fiber optic connectors, coaxial and flat-ribbon cable, and interconnect systems. The primary end markets for the Company's products are communications and information processing markets, including cable television, cellular telephone and data communication and information processing systems; aerospace and military electronics; and automotive, rail and other transportation and industrial applications.

Amphenol Corporation is proud of our reputation as an excellent employer. Our main focus is to provide the highest level of support and responsiveness to both our employees and our customers, the world's largest technology companies. Amphenol Corporation offers the opportunity for career growth within a global organization. We believe that Amphenol Corporation is unique in that every employee, regardless of his or her position, has the ability to positively impact the business.

**Position Title:** Technical Writer; High Speed IO Connectors

**Location:** Toronto, Canada

HSIO, a division of Amphenol, is the market leader for high speed, high bandwidth electrical connectors for the Telecom/Datacom market (Mobil Networks, Storage, Servers, Routers, Switches, etc.). Our products help to enable the electronics revolution and remain a key enabler for all the major Tier 1 OEM's globally. Our global headquarters are located in Nashua, NH and we have design, sales and manufacturing locations globally. We are currently seeking a high energy Technical Writer to join or team in Toronto, Canada.

Reporting to the Global Product Marketing Manager for High Speed I/O Connectors, the Technical Writer will produce high-quality documentation that is appropriate for its intended audience and contributes to the overall success of our products.

## **RESPONSIBILITIES:**

- Work with internal teams to obtain an in-depth understanding of the product and documentation requirements
- Produce high-quality documentation to communicate complex technical information, including, but not limited to:
  - Technical customer presentations
  - Product brochures and datasheets
  - Configuration guides
  - Product specification sheets
  - Field application notes
  - White papers
  - Product website content
- Select appropriate medium for messaging or audience, such as manuals or online videos
- Create tutorials to help end-users use a variety of applications
- Analyze existing and potential content, focusing on reuse and single-sourcing opportunities
- Study product samples and interface with product engineers, product managers, field sales and other marketing team members

## **QUALIFICATIONS:**

- 4+ years of proven working experience in a technical writing field
- Must have a Bachelor's degree or technical diploma in Electrical or Mechanical Engineering
  - Additional Communications and/or Marketing degree is highly desired
- Proven experience writing high level technical documentation for networking, storage and cloud computing industries
- In-depth technical knowledge/understanding of the following standards: Ethernet, Infiniband, SAS, Fiber Channel & PCIe
- Ability to quickly grasp complex technical concepts and make them easily understandable
- Excellent written skills in English
- Strong working knowledge of Microsoft Office & Photoshop
- Proven ability to work independently with very little supervision or frequent direction
- Ability to work in a very dynamic and high pressure environment with a global footprint

## **ASSETS:**

- Experience in the high speed copper and optical interconnect industry is highly desired (connectors, cables, circuit boards and/or modules)

**If you are interested in this opportunity, please send your cover letter and resume to [kathleenp@amphenolcanada.com](mailto:kathleenp@amphenolcanada.com) by June 30<sup>th</sup>, 2017. Referrals are welcome.**
